VISION

To become a globally oriented IT firm, enabling socio-economic development in Africa.

MISSION

To provide IT solutions dedicated in connecting Africa's businesses to consumers.

WHO ARE WE

We are an IT company focused on developing intelligent business solutions, using computer software & robotics. Founded in 2013 and headquartered in Cyprus, we have an established presence in 6 countries in Africa, serving a diverse client base of 1342 enterprises, delivering unparalleled value, and officially registered in Zimbabwe 2014.

WHAT WE DO

- We create customized web & mobile phone applications, catering for B2B & B2C interactions, providing maintenance and hosting services using our servers in Cyprus, UK and USA.
- Researching and analyzing I.C.T market trends and challenges, coming up with solutions, Liaising with the client sending their findings for the development of the recommended solutions
- Partnering up with young idealist to help them put software ideas to life

OUR KEY COMPETENCIES

- Understanding client business needs and supply appropriate products and pro-actively

maintaining these products through service level agreements.

- Provide an environment that is favorable for maximum human capital.
- Dedicated and professional work force deployment.
- Value for money to all our clients and return on investment
- Delivering applications and full documentation briskly
